Nimble AMS

Nimble AMS myTrailhead Training Modules

Maximize your AMS investment and help your team thrive.

Product features and functionality are important, but your organization's success relies heavily on ongoing training. With Nimble AMS mirroring Salesforce's ideal product upgrade model with three major seasonal releases a year, there's a lot of product innovation to keep up with. To ensure you are utilizing Nimble AMS to its fullest, myTrailhead training modules will help your team learn about the latest Nimble AMS releases.

With Nimble AMS myTrailhead training modules you will:

- Stay current with the latest features and functionality

- Select which new features and functionality help to achieve your strategic priorities

- Foster a culture of continuous learning that keeps your staff engaged

- Maximize your AMS investment by boosting your feature/functionality usage

- Have fun learning and exploring Nimble AMS

Maximize your success with Nimble AMS myTrailhead.
